### **DETAILED ACTION**

This application is in condition for allowance except for the presence of claims 2, 4, 7-9 and 28-31 to an invention non-elected without traverse. Accordingly, claims 2, 4, 7-9 and 28-31 have been canceled.

### ***Reasons for allowance***

1. Claims 5-6, 10-12 and 14 are allowed.

2. The following is an examiner's statement of reasons for allowance:

Jeong et al. (5,442,584) appear to be the closest prior art reference. Jeong et al. teach substantially the entire claimed structure, as recited in claim 5, except having first and second contact holes for connecting the first diffused region to the capacitor and the bit line with the second diffused region, respectively. Therefore, prior art do not teach or render obviousness the semiconductor structure, as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
